

Dear Butterflies,

How are you?

It's been an incredibly long time since we were last able to see each other. I hope you are safe, healthy and happy!

This year has been an extraordinary year and we have had to make many changes to the way we learn. Well done to every one of you who has been hard at work using the school resources.

I want to thank every child in Butterflies' Class for the amazing time we shared learning and growing together. We have learnt many new skills this year such as using conjunctions in our writing, part whole models to represent numbers and performance skills to create a wonderful class assembly. You all worked so hard to learn about history, science and geography.

I'm so proud of every child in our class. Over the year, I have seen the many, many ways that you have all cared for each other, respected each other and supported each other to achieve your targets and goals. You have all grown so much since September!

The summer is here and now it is time for us all to prepare for the next school year. After the summer holidays you will be in Year 3. It makes me so happy that I will see you again!

Let's make a **SPLASH in Year 3 Dolphins!**
