

Book Review

What is the title of this book?

Time to Time Travel

Who wrote this book?

Helen Chapman

What is the book all about?

This book is about three different countries like in the past. These countries are China, Italy and Egypt. In the stone age they wear animal fur when they get cold. They knew how to make fire and draw on their walls. The Roman Army were very strong. They built incredible buildings. In China people made 3 great, incredible things and these things are paper, fireworks and compasses. The Ancient Egypt had 3 important things which are pyramids, Sphinx and Hieroglyphs.

What is the most interesting part

The China part was most interesting to me because The Great Wall of China is 6000 kilometers long and it took 1700 years to be built. I like the pyramid part as well. It is in Egypt.

This book is so interesting and informative to me. You can read it so you get information about the different countries in the past.
