

*Hello my dear friend,*

*what a spectacular day it has been for me here in Baghdad!!*

*You must travel here, it is the most wonderful place and a beauty too. A sapphire, clear blue river runs across the whole of the metropolis as gorgeous, sacred mosques are visited by many.*

*Education here is outstanding, with many great lessons to be taught, for instance, maths and science which are both taught with pride and quality.*

*Once you set foot inside of the House of Wisdom (also known as Bayt Al Hikma), it is as if you have instantly transported into an astonishing, new world of education, a variety of many unique, one of a kind, books, each completely different from the other. Baghdad is also a vast, enlightened city where many have made big advancements in medicine and also philosophy.*

*The city of Baghdad also has quite a lot of history, did you know it was originally built in 752 AD and is also the capital city of Iraq. These are the many reasons why you should visit the beautiful city of Baghdad.*

*Your sincerely, Yasmine*

*P.s: Hopefully you've made your mind.*
